Also known as: Coal Mine Production Foreman, Construction Foreman, Construction Supervisor, Electrical Supervisor, Field Operations Supervisor, Field Supervisor, Insulation Foreman, Roustabout Field Supervisor, Sheet Metal Foreman, Site Superintendent

Are you good at ...

- Paying attention to detail?
- Being reliable, responsible, and dependable?
- Leading others and taking charge?
- Being honest and ethical?
- Keeping your emotions in check?

A Day in the Life

First-Line Supervisors of Construction Trades and Extraction Workers directly supervise and coordinate activities of construction or extraction workers. They evaluate projects to determine compliance with technical specifications. They inspect equipment or tools to be used in construction or excavation. They monitor construction operations and direct construction or extraction personnel.

They coordinate construction project activities. They review blueprints or specifications to determine work requirements. They estimate construction project labor requirements and estimate materials requirements for projects. They order construction or extraction materials or equipment. They train construction or extraction personnel and communicate with other construction or extraction personnel to discuss project details. They mark reference points on construction materials and measure work site dimensions. They assist skilled construction or extraction personnel. They record operational or environmental data.

How do I get into this top job?

This job requires a high school diploma or the equivalent. You will need several years of experience in this industry to become a supervisor. If you are low income, ask your job coach, career counselor, training program, or workforce development specialist about assisting you with your training expenses. It might be free!
